

30 April 1982

MEMORANDUM FOR: Acting Director of Central Intelligence

SUBJECT : Meeting on Political Action, 3 May

You have been invited to a meeting chaired by Secretary Haig on Monday afternoon at 1630 to discuss political action. As I understand it, this is an effort to organize and coordinate political action by the USG.

25X1 [redacted] and his people have been working this problem. Attached is a memorandum for the record from [redacted] who attended a meeting at State today with Mark Palmer. His memo gives you some of the background leading up to this meeting, which had originally been scheduled for 6 May. 25X1

Mark Palmer subsequently sent us a copy of the paper which lays out State's proposal for coordinating political action.

25X1 [redacted] who has been attending meetings on this subject with the Director and Charlie Wick, will be back in the building Monday morning. I will ask him to pass on any additional background he may have. ✓
